Steps to Generate TurboMeeting MSI Installer

Download MSI Wrapper free version from following link: http://www.exemsi.com/download

Install MSI Wrapper on windows PC.

Step 1: Open MSI Wrapper and click on Next button on Welcome page.

Step 2:

- Provide the path for TurboMeetingStarter.exe in Setup executable input file name field.
- Provide the path for output msi file in MSI output file name filed.
- Click on Next button

Is MSI Wrapper 7.1.11.0 (free version)	- 🗆 🗙
Executable Select the setup executable you would like to convert to an MSI file. Also, specify the file name and path of the MSI output file.	Ż
Setup Executable Input File Name: C:\Installer\TurboMeetingStarter.exe Security context for launching the executable: Installing User Elevation when launching the executable: Elevate Administrators only WSI Output File Name:	
C:\Installer\TurboMeetingInstaller.msi Installation context: Auto ✓ MSI package requires elevation Go Pro! < <u>Back</u> <u>N</u> ext > Cancel	Help

Step 3:

- Provide application id in Application id field.
- Click on Create New Button it will generate Upgrade code
- Click on Next button

Image: MSI Wrapper 7.1.11.0 (free version)	- 🗆 🗙			
Application Ids Enter the system identification numbers used by Windows Installer.	Z			
Application Id: TurboMeeting	Look up			
Upgrade Code: {A38FA9AE-6C0D-42AD-937D-014625C48238}	Create New			
The application id and upgrade code are needed to identify the installation package when upgraded and uninstalled. If you don't specify an application id then the MSI package will not be able to uninstall the wrapped installation. It is highly recommended that you specify the application id of the executable setup. Make sure these values are correct. Click the help button for more information.
